

MS PROGRAM IN MATHEMATICS CALIFORNIA STATE UNIVERSITY, LOS ANGELES

As a student in our Master's in Mathematics program, Cynthia did applied mathematics research with Professor Melisa Hendrata on cancer modeling. The photo below shows her presenting her work at a conference. She is now in a PhD program at UC Santa Cruz.

While he was a master's student at Cal State LA, Jonathan worked with Professor Mike Krebs in pure mathematics. They published two papers together. Jonathan is now in a PhD program at UC Riverside. See his picture below.

Join the Cal State LA Master's in Mathematics program to get set up for success in applying to, being admitted to, and thriving in a PhD program in Mathematics.

We have supportive and dedicated faculty who are invested in our students. As a student in the Cal State LA Master's in Mathematics program, you'll study the central areas of mathematics needed for success in a PhD program in mathematics, and you'll have opportunities to get one-on-one mathematics research experience with a member of our faculty.

Some PhD programs that our Master's students have gone to include: UC Berkeley, UC Santa Cruz, UC Santa Barbara, UC Riverside, UC Irvine, USC, University of Georgia, Claremont Graduate University, University of Wisconsin, Vanderbilt University, University of Minnesota, Stony Brook University, Purdue University, University of Sydney, Colorado School of Mines, Penn State University.

Scan for more information and to learn how to apply.

While she was a master's student at Cal State LA, Dorian worked with Professor Daphne Liu in graph theory. The photo to the right is of Dorian presenting her work. Dorian is currently finishing up a PhD program at University of Minnesota Twin Cities.
